

Why The Need?

An AI Powered Finance Education Platform

Expensive Courses

Almost every learning courses offering this knowledge is either too overly charged or have vague knowledge itself

Platform Dilemma

A vast amount of platforms offer resources and tools that assist , though they are either too technical or very advanced (Not suitable for everyone) and are scattered

Scarce Knowledge

Most beginners are relatively unaware of how their journey into learning is supposed to be, scattered and no instructions causing losses of money and will.

Stepping-In

New or Beginner Traders/Investors are often overwhelmed with the amount of knowledge needed to get into this field

How Nunno Changes This?

Features and Functionalities

Ai chatbot

An Instructor

The program uses an AI chatbot to instruct, assist and help learning almost everything, provides explanation for metrics and is always ready for updates

Information
